Asian Students Cultural Association

Asian Students Cultural Association (<http://www.abk.or.jp>) was established in 1957 and celebrated its 50th anniversary in 2007. Since its founding 50 years ago, the Association's objective has been to provide a place where scholars and students from the developing countries of Asia, Africa, Latin America and young Japanese students could live together like a multi-cultural family in a healthy, sincere atmosphere where mutual understanding could be deepened and friendships nurtured. At the same time, we aimed to implement various plans and cultural activities that would be necessary to make this possible.

From the time of its foundation, the Association has supported foreign students by providing advisory services and by conducting surveys and providing information related to foreign student acceptance. At present, we offer substantial information through the Internet and publications, conduct surveys and commissioned projects related to educational exchange, and support exchange between foreign students and citizens.
